

CyberScan/Patient

Remote Scan and Collection Instructions

STEP 1: Contact and Payment

Contact Dr. Briska at (630) 412-1852 to arrange payment and so she knows to be looking for the sample.

STEP 2: Collect Sample

A remote scan requires a hair sample. Cut a small lock of hair (roughly 1-2 inches long and enough to easily grab) and put it into a ziploc bag and seal tightly. Clearly write the patient's name, sex, and the name of Dr./Clinic on the bag. Be sure when you collect the hair sample for yourself or for someone else the hair is clean, you have washed your hands well and have used clean scissors to prevent cross-contamination.

STEP 3: Copy and fill out paperwork

Make two copies – a copy to send in and a copy to keep for your records.

STEP 4: Mail

Place completed paperwork, labeled sample and if applicable, payment in an envelope and send to:

CyberScan Questionnaire/Patient

Today's Date _____ Patients DOB _____

Patient Name _____ M / F

Email where to send report of findings _____

PLEASE ANSWER THE FOLLOWING QUESTIONS:

List 3-5 symptoms, issues or concerns you are currently experiencing.

1. _____
2. _____
3. _____
4. _____
5. _____

List any surgeries you have had where something was removed (ie tonsillectomy, appendix).

Do you have a current diagnosis of any kind? If so, please list.

What are your goals, hopes or expectations of the CyberScan treatment?

Is there any additional information you would like to share that might be helpful?

CyberScan Treatment Consent and Disclaimers/Patient

You will be wearing the eeCard for 2 weeks that is downloaded with your specific balancing frequencies.

The eeCard is to be worn near your body taking it off only when you bathe or swim. It must not get wet. It can be put in a pocket or worn around the neck. At night you may place it under your pillow. Do not put it near electronics, cell phones, anything magnetic, computers etc. eeCards are not used again.

These 3 things have been found to change frequencies so PLEASE AVOID:

1. Caffeine – ie regular coffee, chocolate, black tea, green tea, and some medications can contain caffeine. You may only have 1-2 cups of decaf coffee a day.
2. Cannabis – no cannabis or cannabis products that contain THC. CBD may contain trace amounts so please check before taking.
3. Chemotherapy – CyberScan can be done 6 weeks post completion of chemotherapy/radiation.

Please continue your other medications as prescribed. You will want to be monitored by your prescriber. As you improve, dosages may need to be adjusted.

It is better to hold off on doing new treatments or taking new supplements that are not absolutely necessary. We want to know if it is CyberScan is working.

CyberScan can be repeated every 2 weeks.

Every effort is made by Kintsugi Wellness and Dr. Briska to protect patient privacy and comply with HIPPA federal regulations however, Kintsugi Wellness does not use encrypted email.

It may be necessary for Dr. Briska to leave messages regarding an issue or concern. Dr. Briska may contact you via any of the provided information for that purpose.

LEGAL DISCLAIMER:

CyberScan is not for diagnostic tool in the US. CyberScan scan shows areas of decreased frequency and not a diagnosis. It is not a substitute for professional medical, psychiatric care, surgery or treatment. There are no promises or guarantees of outcomes.

By signing below, I acknowledge that I understand and agree to the above, and give my consent for Dr. Briska to use CyberScan.
